Fatherhood at Lake Granbury

For our young men aspiring to be responsible and productive citizens, nothing is more important than fatherhood. For this reason Lake Granbury has initiated a young fathers initiative. This weekend the RAM pictured here met his daughter for the first time.

Through tears of joy and amazement, he spent a few hours learning firsthand what it takes to fill this lifelong role. With the guidance of the mother of his child and her mom, he changed his fist diaper, rocked her to sleep and calmed her cry's. This will "change me forever" the student said.

As many as 35% of our students have children. For this reason, LGYS will continue this essential initiative in perpetuity.
